USERS NOW HAVE THE ABILITY TO POST INSURANCE PAYMENTS AND ADJUSTMENTS INTO MEDISOFT AUTOMATICALLY

InterfaceEDI is proud to announce a new electronic remittance advice (ERA) software package that will automatically post electronic EOBs into Medisoft

Increase Productivity—Save Time & Money

THE REASONS FOR ERA (Electronic Remittance Advice)

- Insurance payers have already started the conversion from paper EOB to HIPPA mandated 835 ERA files
- Electronic 835 ERA files are received by the provider much faster than paper EOBs
- View 835 ERA files through the InterfaceEDI program and print individual EOBs for secondary claims
- Filing, storing, and destroying paper EOBs are no longer a problem, ERA files are downloaded to your computer
- Information within the 835 ERA can be retrieved quickly
- Compatible with EasyPrint from Medicare

THE VALUE BEHIND ERA (InterfaceEDI's ERA Software)

- The auto-post feature will enter the insurance payments and adjustments from the ERA into Medisoft
- Increase staff productivity by using the ONE button auto-post feature
- Post dozens of insurance payments and adjustments in seconds
- Decrease errors from the process of manually entering the information from a paper EOB into Medisoft
- Prepare and send secondary claims sooner by recording the electronic 835 ERA

SEEING IS BELIEVING!

- After informing the clearinghouse to send the electronic 835 ERA file, let us demonstrate how to use InterfaceEDI to view and print reports
- Try InterfaceEDI's ERA software to auto-post the EOB information from the electronic 835 ERA file into Medisoft FREE for 30 days
- Inquire about our special introductory subscription offer after your free trial period
